Institutional Overview

The Universidad del Sagrado Corazón's (Sagrado) tradition is rooted in the teachings of the Society of the Sacred Heart, which promotes an ecumenical spirit from within a Catholic institution devoted to pluralistic dialogue. Thus, our mission is to *educate intellectually free and morally responsible individuals, willing to participate in the development of a more authentically Christian Puerto Rican society, a community united in justice and peace.*

As the 135th anniversary of Sagrado approached in 2014 the then president Dr. José Jaime Rivera retired after 22 years of leadership and passed the baton on to Gilberto J. Marxuach Torrós, Esq. These two events, the preparation for the celebration of 135 years academic excellence and a transition in governance, presented Sagrado with unprecedented challenges in the midst of great economic and social uncertainty in Puerto Rico. These challenges are suspended between tradition and change.

This tradition is built upon principles of engagement within and without, responsiveness to the needs of society, and student-centeredness. In that sense our vision propels us to *offer a unique academic project, an innovative educational experience in which the classroom is the world, in an environment characterized by community life. It is based on the principle that human beings and Christian values are at the center of our project.* We have a profound commitment to provide students with the means and experiences that will enable them to become involved citizens that contribute to a constantly changing society (be it local or global) through inventive curricular and co-curricular offerings, a knowledgeable faculty dedicated to the development of pedagogies appropriate to our times, and a willing and resourceful staff.

The transition in leadership and the consequent changes in the executive team along with a drop in enrollment due to a shrinking pool of potential students, have put Sagrado to the test. In particular, the economic crisis that began in 2006 has resulted in our economy shrinking “by more than 10 percent and employment on the island [falling] by 14 percent. Puerto Rico’s unemployment rate was 11.6 percent in August 2015, more than twice the national level. More than 300,000 people have left Puerto Rico in the past 10 years, including 84,000 people in 2014 alone”. (U.S. Department of the Treasury, 2016¹).

Like other historic transformations, such as the 1970 ownership and governance handover from the religious order to the Board of Trustees (composed of some religious and a majority of lay members), the shift to a co-ed institution in 1972, and the foundation of the first graduate programs in 1985, this transition is embraced as an opportunity. This is a chance to revise and enhance our goals as a private, independent, non-profit, liberal arts higher education institution with high standards for social responsibility.

Currently our university has an enrollment of approximately 4,500 students and offers a wide array of academic programs. Sagrado is the only university in Puerto Rico to receive the

Community Engagement Classification from the Carnegie Foundation for the Advancement of Teaching (2015-2025).

Our strategic planning is geared to three inter-related areas of priority derived from our mission: (1) optimization and continuous improvement through systemic assessment; (2) glocalization: although a throw-back to the environmental slogan “think global-act local”, the term implies commonality and diversity in times of globe-wide connectivity and consciousness in a confined context (country, city, or neighborhood); (3) social, pedagogical, and curricular innovation which result in committed, personalized, participatory, and pertinent teaching spaces and practices for the collective construction of adaptive knowledge for an increasingly uncertain future. These innovations build upon competency based liberal arts education through active learning.

This Self-Study affords Sagrado with a unique opportunity not only to assess the inner workings of the institution but a moment to reflect on the past and build upon it to guarantee a successful transition and future academic offerings while enriching our tradition.

Intended Outcomes of the Self-Study

Our primary intended outcome of the Self-Study is to demonstrate compliance with the new standards:

1. Demonstrate how Sagrado meets the MSCHE accreditation standards.
2. Review outcomes-based institutional assessment practices and make recommendations to expand or refine institutional assessment practices to guide planning, resource allocation, and institutional improvement.
3. Identify overlapping issues between our 2020 Strategic Plan and the Self-Study to enhance Sagrado’s capacity to implement strategic priorities and recommend measures to achieve institutional mission and goals. (Appendix A).

Organizational Structure of the Steering Committee and Working Groups

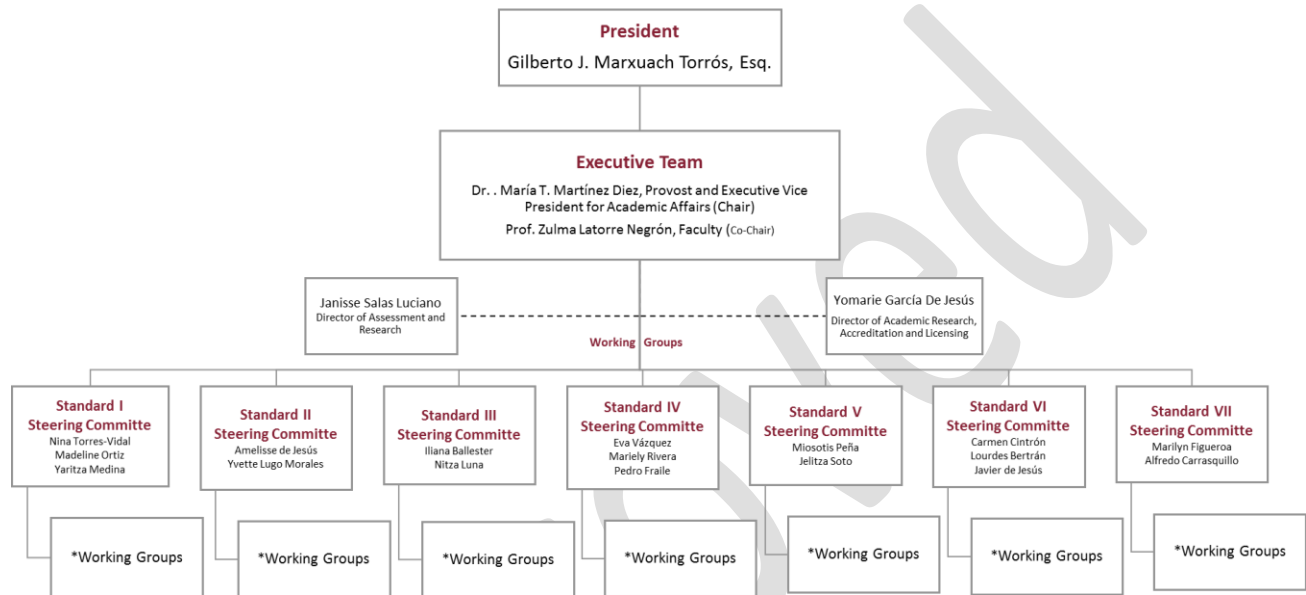

The Steering Committee and the working groups include in their composition (see organizational structure in Chart I): executives, directors, managers and other administrative positions, faculty, students, alumni and members of the Board of Trustees. In the creation of these groups the representation of all stakeholders of Sagrado’s community was considered. Other diversity considerations included: years of experience, knowledge of the issues pertaining to each standard, and expertise regarding topics addressed in order to guarantee balance between the levels of experience within the groups.

To make communication possible between all these participants, we decided to establish and Executive Team that could oversee all the work as well as maintain the President informed of the progress of all groups. As presented in Chart I, the Executive Team include Sagrado’s Provost as chair and a professor as cochair of the Steering Committee. Both the ALO and the Director of Assessment are part of this Team. Then, as usual, the rest of the Steering Committee, and correspondent Working Groups, were divided by standard.

Working Groups

Last August the document titled *Charges to the Working Groups* was distributed with the intention that it would serve to guide the Working Groups in their task of developing their section of the Self Study as related to the Standard for Accreditation assigned to them. It included general direction and specific questions. Each Working Group worked to elaborate the research questions that were appropriate to their undertaking. In addition, this document included writing and style guides.
